Continental Resources Renews Cisco Gold Certified Partner Status

November 12, 2008 - Bedford, MA, USA — Continental Resources, Inc. (CRI) announced the renewal of its Gold Partner Status in the Cisco Channel Partner Program. CRI is recognized as a Cisco Gold Certified Partner for its technical expertise and knowledge and its commitment to providing value-added services and integrated solutions. Cisco has also awarded CRI with Gold Certified Partner status because of its dedication to achieving a high level of customer satisfaction.

As a Cisco Gold Certified Partner, CRI has attained specializations in Unified Communications, Routing and Switching, Security, and Wireless LAN. Achieving a specialization in Unified Communications means that CRI has advanced product knowledge of IP Communications and has the ability to implement solutions in multiple locations and environments. A specialization in Unified Communications allows CRI to provide its customers with cutting edge voice applications.

CRI's advanced specialization in Routing and Switching allows it to be among the elite partners because it focuses on providing integrated systems made up of proven routing, switching, security and communications solutions. The ability of CRI to implement Cisco's Self-Defending Network gives it an advanced specialization in Security. The Self-Defending Network is made up of solutions that integrate security throughout the network thereby simplifying it. An advanced specialization in Wireless LAN concentrates on deploying wireless solutions that increase employee productivity and response time going beyond what a traditional wired connection can do.

As a Cisco Gold Certified Partner, CRI is given access to best-in-class products and services, technical support, productivity tools, online training, marketing resources, and sales promotions, giving them a competitive advantage in the marketplace. "We are pleased to be re-certified as a Cisco Gold Certified Partner," says Kevin McCann, Vice President of CRI. "The resources and benefits we receive as a Cisco Gold Certified Partner allow us to offer our customers the highest quality solutions and services."

About Continental Resources, Inc. (CRI)

With over 45 years of industry experience, CRI is among the most established technology solutions providers. Building on a significant network of relationships with elite technology providers, CRI configures, integrates, and supports servers, storage, networking solutions, VOIP, datacenter and other infrastructure solutions to business, government and academia.
