Continental Resources Achieves Cisco Master Managed Services Certification

Continental Resources Recognized as Having Highest Level of Expertise in Developing and Delivering Managed Services

Bedford, MA –December 9, 2009 – Continental Resources (ConRes) announced today it has achieved the Master Managed Services Certification from Cisco. This certification recognizes Continental Resources as having attained expertise in all phases of the Cisco® lifecycle methodology, described as “prepare, plan, design, implement, operate, and optimize.”

“Our Cisco Master Managed Services Certification complements our Cisco offerings and provides our customers the best-in-class networking and communications solutions,” says Kevin McCann, vice president of the SNI Division of Continental Resources. “Through our Network Operations Center (NOC) we provide Cisco managed services on a 24/7 basis.”

The Cisco Master Managed Services Certification recognizes a solution provider’s investment in the managed service ITIL® processes, practices and tools necessary to provide high-quality managed services. As a Cisco Master Managed Services Certified Partner, Continental Resources has demonstrated the ability to deliver sophisticated solutions, met stringent requirements that reflect a depth of capabilities, and undergone an independent audit by an objective third-party auditor. Continental Resources was also required to offer at least two managed services using the resources and procedures necessary to deploy, manage and support Cisco solutions.

Continental Resources' investment in the Cisco Master Managed Services certification ranks it among an elite group of channel partners with the resources to deploy, manage and support services for multiple technologies," said Edison Peres, senior vice president of the worldwide channels go-to-market group at Cisco.

In addition, Continental Resources has achieved a Cisco Powered Managed Security designation. Cisco Powered managed service designations acknowledge that a [managed service provider](#) has invested in industry-leading Cisco architectures and that its services have met the highest Cisco user-experience standards.

About Continental Resources, Inc. (ConRes)

ConRes is a hybrid VAR the combines custom volume solutions and logistics services with the IT skill sets of a more traditional VAR. ConRes delivers enterprise-class solutions ranging from virtualization to disaster recovery; from wireless to unified communications; from networking to security; from UNIX®, Solaris™, and Linux® to Windows® to I.T. Professionals in business, government or academia.
