IMMEDIATE RELEASE

Continental Resources Achieves Symantec Data Loss Prevention (DLP) Specialization

Bedford, MA– September 15, 2009 – Continental Resources announced today that it has achieved the Data Loss Prevention (DLP) Specialization from Symantec. This specialization achieved in June, recognizes Continental Resources as having fulfilled the training requirements and program prerequisites to sell, deliver and support comprehensive Symantec Data Loss Prevention solutions. Symantec Data Loss Prevention delivers a unified solution to discover, monitor, and protect confidential data across an organization.

In order to attain this specialization Continental Resources achieved two Symantec Data Loss Prevention Sales Expert accreditations and two Symantec Data Loss Prevention Technical Specialist accreditations. In addition to these accreditations, Continental Resources has proven its ability to conduct risk assessments and implementations as well as its commitment to developing a business plan focused on selling Symantec Data Loss Prevention solutions.

“The Symantec Data Loss Prevention Specialization gives us the flexibility to address a critical business need; data security and protection.” said Kevin McCann, VP of IT Solutions, Continental Resources. “This specialization gives us the expertise and bandwidth to deliver DLP solutions that require advanced product knowledge as well as the ability to deploy solutions over multiple sites and geographies.”

As a Symantec Platinum Partner, Continental Resources undergoes extensive training to ensure skill-sets are valid and up-to-date. Achieving the Symantec Data Loss Prevention Specialization also provides Continental Resources with access to comprehensive sales, technical, and lifecycle services training and support available from Symantec.

About Continental Resources, Inc. (ConRes)

ConRes is a hybrid VAR that combines custom volume solutions and logistics services with the IT skill sets of a more traditional VAR. ConRes delivers enterprise-class solutions ranging from virtualization to disaster recovery; from wireless to unified communications; from networking to security; from UNIX®, Solaris™, and Linux® to Windows® to I.T. Professionals in business, government or academia.

ConRes also purchases, rents and leases new, reconditioned and pre-owned test and measurement equipment. The Test and Measurement Division provides support to a variety of applications including datacom, telecom and mobile communications, digital and analog testing, mixed signal, memory and processor testing, components and semiconductors, and RF and microwave.
