Solutions to Maximize the ROI on Your Technology

There are 8 steps in ConRes’ Proven Enabling Methodology framework. Following the 8 steps ensures successful solutions that maximize the ROI on your technology investments.

The Continental Resources (ConRes) Professional Services (PS) Group is the foundation of our value-added solutions. An eight step Proven Enabling Methodology™ framework ensures you receive consistent, timely and high quality services. With over 325 engineering certifications collectively, our PS engineers provide you with enterprise-class solutions ranging from data storage to mobile security; from networking to the cloud; from security to wireless; from virtualization to unified computing; from UNIX® and Linux® to Windows®.

The list below includes the standard offerings in the Professional Services Solutions area. Please contact your ConRes account representative or PS solution manager with your special requirements.

Experience, stability and third party credentials make ConRes a reliable and trustworthy resource for your IT infrastructure and data center solutions.

About ConRes
Build a better IT infrastructure and data center, maximize your choice of IT products and services, and strengthen your ROI – with the friendly professionals at ConRes, the hybrid VAR™. As a hybrid, ConRes brings you a broad range of products, combined with the services and support you’d expect from a traditional VAR.

Whether you’re an IT professional in business, academia or government, you can rely on ConRes for enterprise-class solutions ranging from virtualization, disaster recovery, unified communications, unified computing, cloud computing, security, and networking to UNIX®, Linux®, and Windows®.

• 50 years of experience and financial stability
• 96% customer satisfaction rating (3rd party survey)
• Ranked annually in the top third on the VAR500 (currently #63)
• Elected to the CRN Tech Elite 250, best-of-breed solution providers
