

# RED HAT<sup>®</sup> ANSIBLE<sup>®</sup> Automation

[SCHEDULE YOUR DEMO ▶](#)

## ABOUT ANSIBLE

Ansible, an open source community project sponsored by Red Hat, is the simplest way to automate IT. Ansible is the only automation language that can be used across entire IT teams – from systems and network administrators to developers and managers.

Ansible by Red Hat provides enterprise-ready solutions to automate your entire application lifecycle – from servers to clouds to containers and everything in between.

Ansible Tower by Red Hat helps teams manage complex multi-tier deployments by adding control, knowledge, and delegation to Ansible environments.

## SOLUTION KEY BENEFITS:

- Eliminate repetitive tasks
- Provision systems and deploy workloads faster
- Drastically reduce risk of human error
- Centrally govern and monitor disparate systems and workloads
- Scale readily in pace with demand
- Continuously align business and IT (Dev and Ops)

## WHO'S INTERESTED?

DevOps engineers, operations engineers, systems engineers, release engineers, systems administrators, developers, operations staff, network engineers, security professionals and anyone interested in IT automation.

## DEMO THE SOLUTIONS

Utilizing the ConRes lab, you can demo any of the automation features you might need or want to test. We can also build mini POCs in our lab that are unique to your own environment.

Using this, our customers have been able to learn Ansible quickly to automate: cloud provisioning, configuration management, application deployment, intra-service orchestration, and many other IT needs - eliminating repetitive tasks.

## CUSTOM PLAYBOOKS

Our engineers have experience building customized Ansible Tower playbooks for our customers to test drive in our lab. These playbooks are based on your config and are unique to your environment.

## CONRES KEY VALUE ADD

- We have a Lab that can demo ANY of the automation features you may need
- We build mini POCs for customers to prove out the solution unique to their own environment
- We have Infrastructure Expertise – we KNOW the time commitment and issues associated with managing it
- We have DevOps background
- We are a Red Hat Premier Partner (Highest level)

## WHY CONRES?

We keep the human connection in business. We have the resources of a distributor, with the personal attention and flexibility you'd expect from a private, family business.

ConRes is a women-owned business boasting 50+ years of financial stability. Our award winning technical talent sets us above our competitors, with our engineers averaging 18 years of experience. We have dedicated account teams, meaning the people you interact with during the sales process are the folks you will interface with throughout our relationship.

Give us a try, you won't truly understand the ConRes difference until you experience it first-hand.

## OUR SUPPORT vs. THEIRS

When you need support you call your account manager, not a call center. You'll speak with someone who knows your environment and knows how you use the product. It makes a world of a difference.
