

CONRES CUSTOM COMPUTING SOLUTIONS

Where Building Your Appliance is Just the Start

When you lack the resources to design and integrate computing solutions in-house or require a highly customized appliance, you need dedicated expertise. When you want to accelerate speed to market and free your team from having to coordinate logistics and manage inventory, you need a solution.

That's where we come in.

High-touch service at every phase of the lifecycle.

ConRes engineers Custom Computing Solutions from concept to reality. With dedicated expertise and our ISO 9001-certified Integration & Logistics Center that can scale up and down with your needs, we enable you to bring custom computing solutions to market faster, with meticulous accuracy, reliable performance and logistical ease.

Why we're unique:

Engineering

With us, you add a group of deeply knowledgeable engineers to your team to design and integrate your custom appliance.

Lifecycle support

Our team becomes yours, giving you a long-term partner to manage every detail of the design, production and management of your appliance.

Flexibility that scales

Being a private, family-owned business allows us to be nimble and find creative ways of supporting you that other providers can't or won't.

Many services, one solution

Access the wide range of services needed to support your product throughout its lifecycle.
