

Unlock the Potential of Your Cloud Environment

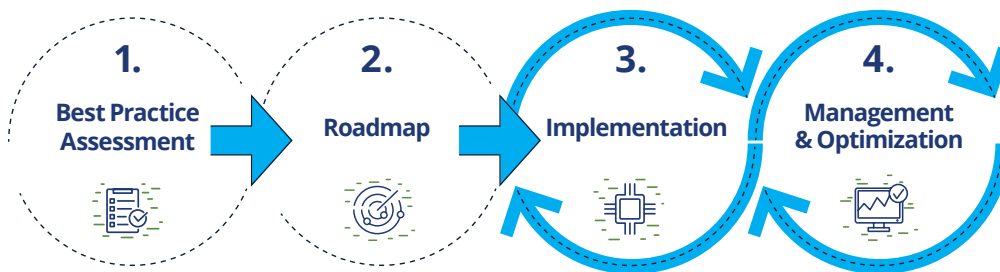

CONRES CLOUD SOLUTIONS

Whether you're on-prem, in a public or private cloud or managing a hybrid or multi-cloud environment, we understand the complexities and business challenges you face and can guide you throughout your journey.

ConRes is built to support the modern cloud environment. By combining our rich history of data center expertise with the latest cloud technologies, we're in a unique position to help you right-size performance, remediate vulnerabilities, ensure compliance and optimize spend.

How We Support You in the Cloud

What We Deliver

Best Practice Assessment

- Instance performance and usage
- Storage optimization
- Security & compliance
- Identity management
- Well architected framework

Roadmap

- Workloads and applications
- Migration
- Optimization
- Provider selection
- Timeline and cost estimates

Implementation

- Solution design
- Planning and testing
- Integration
- Automation

Management & Optimization

- Governance
- Shared security model
- Cost controls
- Security monitoring
- Backup and disaster recovery
- Analysis and reporting

Lack of cloud resources and expertise is a top challenge for organizations.¹

The #1 issue in cloud migration is understanding application dependencies.¹

On average, organizations waste 30% of their cloud spend.²
